Notes from Meeting – DUNE Microsite

Creative Director: Max Douglass
Designer: Jeffrey Wang

Words as navigation work better for desktop, maybe icons for mobile?

No Title/Navigation on Character/Plot screens
- Can we make this the nav bar but it turns into a hamburger menu when on a page.

Learn More? – What will this button do.
- Either expand more text or lead to Wiki: Either option is fine

- Nailed the Style
    o Great Font
    o Images look good
    o Color scheme looks good

Family Tree overlay looks great

Keep cool font for family tree since more legible font is used for description.
