Notes from Meeting – DUNE Microsite

Designer: Jeffrey Wang
Creative Director: Max Douglass
Date: 4/12

- Simplified down the character slides (Family Tree elemnt was too hard to implement)
- Side scrolling not super usable on Windows, carousel?
- A bit of lag from the sand effect
- Everything looks great, captured the vibe of the books
- Using illustrations from the book for the plot instead of from the movie.
- Take away the Bene gessirit and Smuggler parts for characters, theres no relevevant characters for those groups
- Mobile design looks good for all parts, maybe adjust widths for characters.
